Docket No. 98N-1265-99 APR 20 AM 11:32  
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have been working with the Madison Pharmacy across state lines for some time. They are a model of professionalism, information and service to me and to my doctor. I live in New York City where I have yet to locate any pharmacy on this level.

I own plenty of stocks in several major pharmaceutical companies and I support all that they do. What they DON'T do (ie include compounded prescriptions) should not be denied me!
